

CAMBRIDGE

SMOOTH STEEL DOORS

Cambridge smooth steel doors are designed for strength, security and durability. This premium, insulated door system is constructed with a full steel-edge perimeter that offers additional strength and the industry's highest security rating.

- 22-gauge steel for increased durability
- Resists denting, cracking, splitting, warping and twisting
- Adjustable hinge plate system
- Fire rated up to 90 minutes
- Limited lifetime warranty

22-GAUGE STEEL

40% thicker than bargain-brand entry doors.

PREMIUM STEEL-EDGE

Built with a full steel perimeter rather than wood framing.

G40 HOT-DIPPED GALVANIZED STEEL

More resistant to rust than typical, electro-galvanized doors, even in high moisture or coastal environments.

COMPOSITE LOCK BLOCK

Secure mounting for door hardware. Won't absorb moisture or swell like wood lock blocks.

SLIDE ON SWEEP

Easily replace the sweep without removing the door from the frame.

SCREWLESS & CAULKLESS GLASS FRAMES

Eliminates the need for unsightly screw plugs.

NORWOOD

TEXTURED STEEL DOORS

The warmth of wood meets the strength of steel with the Norwood series. These textured steel doors are constructed with a deeply embossed Oak wood grain surface. Enjoy the beauty of wood in your home.

- Deep grain embossment gives a realistic wood appearance
- 22-gauge steel
- Full steel-edge perimeter offers additional strength
- Adjustable hinge plate system
- Fire rated up to 90 minutes
- Limited lifetime warranty

Availability based on
3/0 width for doors
and 14" for sidelites.

configurations
and sizes may be
available.

TIMBERLINE

FIBERGLASS DOORS

Timberline fiberglass doors are available in a smooth or textured Oak surface. They are designed with energy and thermal performance in mind, while providing depth and dimension to your entryway.

- Withstands everyday use and all surfaces are easy to clean
- Full-length composite stiles and rails with HydroShield provide a 6-sided protection against water infiltration, mold, and insects
- 25-year limited warranty

SF = Smooth Fiberglass
TF = Textured Fiberglass

Availability based on 3/0 width for doors and 14" for sidelites.

TIMBERLINE SMOOTH

Contemporary doors to give your home a sleek and clean look.

TIMBERLINE TEXTURED

Replicates the look and texture of real Oak wood doors.

CAMBRIA

Cambria is a stylistically forward doorglass choice, with characteristics of European architecture and rustic styling. A black chrome finish softly curves throughout a textured glass surface accented with clear beveled glass clusters. Cambria offers a medium level of privacy.

Perspectives

BLANCA

Offering a high level of privacy and an understated backdrop, Blanca has a frosted, slightly stippled surface.

CHINCHILLA

As touchable as its namesake, Chinchilla's fine lines and organic, fur-like texture create a striking wave pattern when seen from afar.

MICRO-GRANITE

Just as its name implies, Micro-Granite blends texture and pattern to create a surface reminiscent of small textured polished pebbles.

RAIN

All that's missing is the patter of raindrops. Rain features a vertical pattern and textured surface that create the illusion of rain trickling down a window.

A home can be a place of quiet comfort or joyous commotion. It can be a palace, a retreat, a gathering space – it's all a matter of perspective. Our collection of textured glass offers a medium to high level of privacy for your entry doors in a variety of textures and shapes that helps you make your house whatever you want it to be.

CUMULUS

Whether soft wisps of clouds or a 30,000-foot view of mountainous terrain, Cumulus takes a view from afar and brings it down to earth in your entryway door.

LINEN

Whether reminiscent of a soft linen shirt or an elegantly embroidered linen tablecloth, Linen's lightly etched glass and woven pattern complement casual or formal entryway designs.

STREAMED

The pronounced vertical pattern and strong ribbed texture of Streamed create the allusion of the organic flow of water in your entryway.

VAPOR

Reminiscent of Northern Lights, Vapor creates an ethereal play of light and shadow and a medium level of privacy for your entryway.

PERSPECTIVES

Each of Perspectives’ eight styles brings a unique perspective to your door and home. Each offers an understated, minimalist approach to doorglass design. Textured and patterned styles offer privacy while still providing light and distinction.

	BLANCA privacy = 9	CHINCHILLA privacy = 9	CUMULUS privacy = 8	LINEN privacy = 9	MICRO-GRANITE privacy = 9	RAIN privacy = 9	STREAMED privacy = 9	VAPOR privacy = 6

sweeping floral patterns will leave a lasting impression

CYPRESS

Cypress doorglass helps communicate your design style and your home's rustic aesthetic. This unique glass provides design interest without the use of metal caming. Sweeping floral patterns and rich glass textures create a beautiful entryway, and will leave a lasting impression.

VENTED GLASS

Vents let you enjoy warm breezes when open, while shutting out cold wind and rain when closed. The UV-resistant frame keeps its appearance and the removable screen makes cleaning easy. With ten adjustment locations for latches, you have options for placement of the vent latch on the frame.

Surrounded by Quality

US Patents: 6,789,358; 7,350,336; 8,413,383.

ADJUSTABLE SILL

- Fully composite subsill with synthetic caps and nosing
- Champagne sill standard, with optional Bronze or Mill finish

DURA-FRAME™ JAMB

- Alaskan Yellow Cypress at the bottom of the jamb to resist rot and insects
- One-piece design, up to 12" depth, with no unsightly jamb extensions
- Limited lifetime warranty

BALL-BEARING HINGES

- Reduces door squeak and eliminates grinding dust (black powder)
- Nine available finishes: Matte Black, Dull Chrome, Bright Chrome, Colonial Bronze, Satin Nickel, Antique Nickel, Antique Brass, Satin Brass, and Bright Brass

CONTINUOUS SILL

Creates a stronger system and reduces opportunity for air and water infiltration on sidelite units.

ONE PIECE MULLPOST

Adds strength and ensures your entrance system is storm door ready.

T-NUTS

T-nuts are used on all wood jambs to prevent hinge screws from stripping.

Built to Perform

IN ALL CLIMATES

The components of our exterior door system are engineered to work together, creating a weather-tight seal. Both steel and fiberglass doors are fully insulated with an inner core of polyurethane foam, which provides superior thermal performance and greater energy efficiency.

You'll save on energy costs for years to come. Many of our products have been certified in meeting ENERGY STAR qualifications.

ADJUSTABLE HINGE PLATE

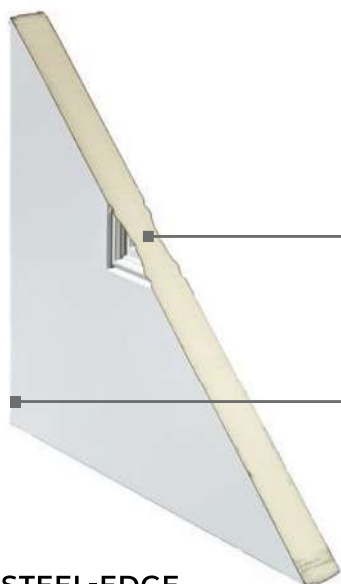

- Allows the door to be adjusted up and down, in and out within the frame.
- Adjustment allows for a tight fit against the weatherstrip and threshold.
- Available in many door series and styles

ADJUSTABLE SILL

- Stands up to wind and water
- No rotting, warping or deterioration over time

US Patents: 6,789,358; 7,350,336; 8,413,383.

**STEEL-EDGE
DOORS**

Timbergrain doors have a 4" LSL stile on both edges to keep the door straight and tight against the weatherstripping.

Polyurethane foam core fills every void to protect from heat loss or gain – five times more efficient than a wood door.

Steel-edge ensures a door will not rot, bow or warp, even under extreme conditions.
