PRIMAX Signature windows

The beauty, design and style of the
PRIMAX Signature Window

is built, crafted, and made with pride in the USA.

Replacing your windows has many benefits to your home such as; boosting it's beauty, giving it an added custom design touch and will transform your homes curb appeal. All while reducing energy costs and increased comfort.

PRIMAX Signature Window is built to resist whatever mother nature can throw at it.

"We love our windows and I love the fact I can tilt them in for easy and safe cleaning. They had so many selections of frame colors that it blends well with the interior woodwork..."

-Dede G.

6 REASONS

Homeowners Replace Their Windows

#1 Energy-efficient & Performance

The #1 reason homeowners replace their windows is to save the maximum amount of money they pay on energy bills from heating and cooling their home. Our

PRIMAX Signature Window gives energy efficiency and performance while also reducing outside noise; beyond compare.

Eliminating costly maintenance. Old wooden, storm or vinyl windows are costly to maintain.

Beauty and Design. Newly designed windows give your home a new fresh look.

Security. Older windows lack strength and proper security measures from intruders.

Increased Value. New windows add curb appeal and increase the value of your home by adding strength and beauty.

Ease of cleaning. Older windows are harder to clean and are unsafe. New glass technology helps windows stay clean and tilt-in for easy safe cleaning.

DOUBLE HUNG WINDOW

Windows are the eyes of your home, allowing you to see the world outside while adding beauty, value, and efficiency. The **PRIMAX Signature Window** Double Hung windows are built with performance in mind. They feature tilt-in sashes for ease of cleaning making maintenance a thing of the past.

Each window is built with security in mind featuring double action steel locks with one motion. Dual tech locking system allows you to lock and unlock with ease. No other window provides as many standard features.

Signature

CASEMENT Windows

The **PRIMAX Signature Composite Casement Windows** are irresistibly charming. They have weather tight seals. Effortless crank handles that conveniently fold down as not to intrude with your curtains or blinds. Our casement windows feature low-E coatings, argon gas fills, and superb insulating features. Signature Casement windows are ENERGY STAR® certified, meaning they can help you save on monthly energy costs. They also exceed industry standards for impact resistance, weather-ability, and heat resistance. **Casement windows** have a heavy-duty vinyl frame and a heavy duty steel multi-point locking system.

Multi-Point
Locking
System

AWNING Windows

The **PRIMAX Signature Composite In-swing and Out-swing Awning Windows** incorporate many of our Casement window features. Awning windows making it easier to reach when opening. An awning window is unique, because it is hinged at the top and opens outward, preventing rain or falling leaves from entering your home. Featuring triple pane, awning windows are also great basement windows due to the ease with which they allow for ventilation.

Dual arm operator that has a corrosion resistant coating.

In-Swing

Out-Swing

SLIDER Windows

The **PRIMAX Signature Composite Slider Windows** offer a classic design that lends itself from contemporary look to modern style homes. With ease, the Slider Window can be lifted out for cleaning. Slider windows add protection from the outside elements and can be customized with hardware and grid options.

PICTURE Windows

The **PRIMAX Signature Composite Picture Windows** fills your home with natural light and creates a large canvas for beautiful views with elegance, efficiency, and security. With a reinforced structural center lite as the foundation. The **PRIMAX Signature Composite Picture Windows** are easier to maintain than standard windows and help with insulation and weatherproofing.

Signature

BAY & BOW Windows

The **PRIMAX Signature Composite** Bay or Bow Windows can provide the sweeping panoramic view they deserve. Whether your dream landscape is your garden, the forest, a river, or the 18th hole, some views just beg to be seen when a standard window doesn't do justice to your surroundings.

With Composite's premium quality materials, superior craftsmanship, and energy-efficient features, our classic bay and bow windows offer a unique style and dimension to a home. They come custom built in a combination of three or more angles for your viewing pleasure.

Bay Window Model

PATIO Doors

Enjoy all the best features of a **PRIMAX Signature** window in the form of a door. Our Patio Doors come in a variety of styles and models.

We provide a palette of frame and glass options -- you provide the inspiration. Bring in the outdoors while taking advantage of energy-savings along with protecting the interior environment.

Our standard multi-point locking system with structural reinforcement and a rot resistant sill provides you with long lasting security, efficiency and peace of mind.

***Patio Door Hardware:**
Black, White, Nickel, and Beige*

With its double locking action, it is virtually impossible to remove the door by lifting it off its track.

Notice the two channels in the lock. In addition it has a key lock.

A sliding patio door includes a locking screen that adds some security so you can leave your door open and enjoy a comfortable breeze. Screens also keep insects and other pests outside where they belong.

The Foot Lock is an additional security lock for the dual locks above. Additionally the foot lock will allow you to partially open your door and lock it in position for secure ventilating.

Three Exclusive & Dynamic Features

Signature
EZ clean glass

Windows that almost clean themselves.

Work can be a pleasure, but window cleaning is a chore. Exterior window surfaces require constant maintenance, but not so with EZ Clean glass. EZ Clean means glass stays cleaner longer. And when you must clean your glass, it'll be easier and fast. Neat+ uses a combination of static dissipation to reduce the amount of dust on the window's surface, along with help from the sun to breakdown greenhouse gases and other pollutants to keep the window naturally cleaner.

Rain on ordinary glass

Rain on Signature Ez Clean Glass

MagnaSeal

Sealing the window like your refrigerator.

MAGNASEAL is a magnetic sheet that is the safest, most effective, and efficient ways to prevent leaks. It has an ultra-tight magnetic seal. It keeps the cold out in the winter and heat in the summer when the window is closed, and the lock is engaged. The seal acts like your refrigerator seal when the door is closed.

SP1000 Spacer System

SP1000 spacer in non-metallic when it's cold outside...

WHEN IT'S COLD OUTSIDE, METAL TYPE SPACERS CAN DRAIN THE ENERGY OF YOUR HIGH-PERFORMANCE WINDOWS.

FRAME FEATURES & Options

PRIMAX Signature windows

OUTPERFORM because of 3-N-1 frame Construction

1 Composite Reinforced Vinyl Sashes

Adds superior strength, integrity, insulation, and tilt-in for an easy clean,

2 Dual Vent Locks

Allows windows to be vented for fresh air without sacrificing security. Strong enough to tolerate forcefully raising the window without giving.

Dual Tech Tilt 'n Lock

Incorporates same lock and tilt-in hardware -- eliminating separate sash lock. One lever disengages lock, with one more step opening the latch to tilt-in.

3 Beveled Exterior with integral drip cap

Aesthetically pleasing; keeps glass cleaner.

4 Double-barrier fin-seal weather stripping

Tight seal — prevents air and water infiltration. Keeps you to stay warmer in the winter and cooler in summer.

5 Stepped down window jam

Improves structural strength allowing you to stay warmer in the winter and cooler in summer.

6 Self-adjusting stainless steel balance system

Strongest in the industry; allows homeowner to effortlessly raise and lower sash,

7 Triple Insulated Glass

Superior thermal performance; sound deadening.

8 Truly Sloped sill

Keeps water outside of your home with no need for weep holes.

9 Bulb seal

Creates an ultra-tight seal; prevents cold air infiltration.

10 Magna Seal

Magnetic seal like a refrigerator door creating an airtight seal.

11 Structural Foam Filled Multi-chambered fusion-welded main frame

Improves structural and thermal performance. As well as creating effective insulating air spaces for thermal efficiency.

12 Handle

Easy to raise window. You can also have an additional handle installed.
