

# Patio Doors

By Primax Compozit Home Systems

Enjoy all the best features of a **PRIMAX Signature** window in the form of a door. Our Patio Doors come in a variety of styles and models.

We provide a palette of frame and glass options -- you provide the inspiration. Bring in the outdoors while taking advantage of energy- savings along with protecting the interior environment.

Our standard multi-point locking system with structural reinforcement and a rot resistant sill provides you with long lasting security, efficiency and peace of mind.

**Patio Door Hardware:**  
*Black, White, Nickel, and Oil Rub Bronze*

With its double locking action, it is virtually impossible to remove the door by lifting it off its track. Notice the two channels in the lock. In addition, it has a key lock.

The Foot Lock is an additional security lock for the dual locks above. Additionally, the foot lock will allow you to partially open your door and lock it in position for secure ventilating.

A sliding patio door includes a locking screen that adds some security so you can leave your door open and enjoy a comfortable breeze. Screens also keep insects and other pests outside where they belong.

# Features and Styles

## Added Security

All doors come standard with **tempered safety glass**, that is 4x stronger than regular.

## Customized for You

Door width ranges from 5' to 8' with a standard height of 79.5", but widths, heights, and number of panels can be **customized to fit your needs**.

## Extra Reinforcement

All PVC hollow stiles are reinforced with **think mill aluminum** or **steel** for extra added strength. This creates a flawless design for all profiles and holds rigidity for a lifetime.

## Built for a Lifetime

Our **four-point welding process** creates one solid cohesive unit that withstands the harshest wind and structural loads.<sup>1</sup>

## Frame Protection

Integrated **channel bumper** offers protection to the frame by now allowing the operable sash to slide too far.

## Tight You Say

**Double-fin weather stripping** at the interior & exterior barriers protect against air and water infiltration, creating a tight seal.

## Don't Rollover

Standard with heavy duty **extruded aluminum screen** that is 10x stronger than roll foam.

## Effortless Operation

Concealed, tandem zinc plated no-rust **steel rollers** for a smooth slide and one finger operation.

## Ready for Any Application

This door series is also available with a built-in **Nail Fin\*** to the frame allowing it to be used in new construction applications.<sup>2</sup>
